AN ANNOUNCEMENT

Notwithstanding continual price increases on commodities of all kinds we are proud and happy to announce that on our Vegetable Seed, Flower Seed and Bulbs we have made on an average

NO INCREASE IN PRICES

To be able to do this, of course, we have to keep our overhead down to an absolute minimum and practice many economies at the same time maintaining our

USUAL HIGH STANDARD OF QUALITY AND SERVICE

We shall be able to accomplish this through steady increase of business and the anticipation that increased volume of sales during the coming year will offset losses caused by higher costs. Having confidence in receiving the support of others besides the friends we already have the pleasure of serving we feel sure this policy will prove a success.

Respectfully yours,

TUBB & KLEIN

Keeping Up with the Times

Agriculture and Horticulture are keeping pace with other industries in scientific developments.

A noteworthy achievement has been the discovery of

SPERGON

for the protection of seeds against soil carried fungus diseases.

Most of our Vegetable seed and some of our Flower seed (such as Asters and Antirrhinum) have been treated with SPERGON which has been tested, approved and recommended by the U. S. Department of Agriculture and is absolutely harmless to human beings and animals.

We are very reluctantly compelled to advance the prices of our Grass Seed Formulas due to the extreme scarcity of Kentucky Bluegrass, the "back bone" of all good mixtures.
